

## January 2021

### Real Estate and Construction Update

It's honestly crazy typing out January 2021 for the first time and I am having a hard time wrapping it around my head that it's here! 2020 has definitely been an unforgettable year in so many ways. Despite all the turmoil the pandemic has caused nationwide, I truly feel blessed to live in a place like Southern Utah. Things are still moving fast around here due to the low inventory and high demand of people moving here from around the country. It will be interesting to see what spring has in store for us as there are many residential developments on the horizon of being built, along with quite a few commercial developments with exciting openings too. There's something happening in just about every part of the county and it's so exciting to see. Check out what's new down below, and if you need a title company to help with the purchase, sale, or refinance of real estate, or have any questions regarding anything real estate related, I'm always happy to help! Thanks for following along.

P.S. Check out my YouTube channel for video updates with drone footage of everything happening in Southern Utah [https://www.youtube.com/channel/UCpk2Nqov2V3-3y4-NCZSOhw?view\\_as=subscriber](https://www.youtube.com/channel/UCpk2Nqov2V3-3y4-NCZSOhw?view_as=subscriber)

**P.P.S I have moved a bunch of the older content from the "Developments in progress or opened this year" section down to the section below where it lists businesses that opened in 2020.**
